HOW DOES IT WORK?

Your GFO²GO™ CFO becomes part of your management team, working with you, as your financial “trainer” to keep your business moving in the right financial direction. Your CFO works with you weekly, monthly or even daily, if you desire. They provide structure to the process by providing agendas for your meetings, and setting a list of priorities that need to be addressed to keep your business’ financial house in good order. Clients have frequent contact with their CFO including in-person meetings, phone calls and review of “flash reports” to keep your financial performance strong and in good order.

A UNIQUE APPROACH TO YOUR UNIQUE BUSINESS.

The GFO CFO Group understands you can’t trust just anyone to provide the financial coaching you need. That’s why we developed the GFO Matching Program™. The GFO Matching Program™ makes sure you get a CFO with the experience and specialized knowledge to manage the finances of your business.

Meet your CFO before starting an engagement, and make certain that the partnership is a good fit before signing any contract with The GFO CFO Group. And remember, the GFO Matching Program™ starts and finishes with you. We’ll make recommendations as to which of our CFOs might be able to best help your business, but in the end – the decision is yours.

NOT A “COOKIE CUTTER” APPROACH.

Individually tailored for your type of business and designed to be as comprehensive and flexible as your circumstances require, GFO²GO™ is never the same solution twice. We carefully consult with you, assess your needs, and recommend the right approach and right amount of CFO time for your business – and your bottom line.
