Dear Jeff,

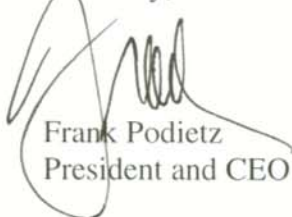

I am delighted to prepare this letter of recommendation on behalf of the meaningful and timely services afforded to us by **GFO Consulting**.

With the need to engage an interim Chief Financial Officer, we turned to your service, and, in rapid order, you were able to provide us with a variety of talented individuals each most capable of supporting our needs during a transition period. In addition to the resources you presented to us, you also added significant value by consulting with us regarding the subtle and various nuances of interim professional staff.

After interviewing potential candidates, we selected the ideal professional who supported our needs and provided a seamless entry for the newly engaged CFO. We considered ourselves extremely fortunate to have had the benefit of your practice in guiding us through this significant change.

I can recommend **GFO Consulting** without reservation. I wish you continued success in responding to the needs of your clients.

Sincerely,

Frank Podietz
President and CEO
