Dear Jeff,

I am writing this letter to let you know how thrilled we were having Mark Fehnel fill in as our interim CFO. Mark filled this role within days after both our Director of Finance and general ledger accountant left unexpectedly in the middle of February - right in the middle of our year end audit and without January's month end closing completed. Not only did he quickly bring order to the financial operations, he also documented his month end closing procedures and noted several great suggestions for process improvements, all of which made my transition into the role of VP Finance that much smoother. On top of all of this, he was a calming influence and a pleasure to work with.

I am extremely grateful for the services you provided to us through Mark, and would be happy to recommend GFO Consulting to anyone else, and to use you again should the need arise.

Sincerely,

A handwritten signature in black ink that reads "Ellen G. Purdy". The signature is written in a cursive style with a long, sweeping tail on the "y".
